CONDITIONS OF SALE

1 Bids are for the lot, irrespective of the number of items it contains.

2 The highest bidder shall be the buyer; in case of dispute the auctioneer's decision shall be final.

3 All sales are for cash; persons known to us may have their purchases delivered or forwarded upon the understanding that payment *in Chicago funds* will be made within three days after receipt of goods. Persons unknown to us are respectfully requested to give us reliable references, otherwise to make a cash deposit equal to 25 per cent of their bids.

4 Advances of 5 cents may be made until one dollar is bid, then 10 cents until five dollars is bid, and thereafter the minimum advance shall be 25 cents.

5 Claims based on material error in description, if made at once upon receipt of goods, will be adjusted, but we reserve the right to be the judge of the fairness of any such claim or claims.

6 Goods purchased will be ready for delivery on the Monday following the sale between the hours of 10 A. M. and 5 P. M., in the auction room. Out of town buyers may have their goods shipped to them, at their own risk and expense; in the absence of specific instructions such shipments will be made in the manner which we think best.

7 All items in this sale are guaranteed genuine indefinitely, unless otherwise stated.

In this catalogue we have given extended descriptions of the types in the United States silver series. It is to be understood that coins are of the same type as the last described, until a new description appears or alterations are noted. United States coins are from the Philadelphia mint if no mint letter is mentioned. Branch mints are indicated by O for New Orleans, S for San Francisco, C for Charlotte, D for Dahlonega until 1861 and for Denver since 1906, and C C for Carson City.

We have endeavored to describe plainly and to state the true condition, mentioning important defects when such are in evidence; in lots containing more than two or three items it is not customary to mention the defects and blemishes of each and the statement of the average condition or the range of condition must suffice, but the number of holed, crushed or otherwise seriously damaged pieces, will be stated in connection with all lots containing such.

A printed list of prices realized at this sale will be mailed to any address for fifty cents.

Our Mr. Theophile E. Leon will execute bids for the usual commission of 5 per cent on the amount purchased, with the understanding that he will buy for the lowest possible sum within the limits given him.

Swedish Copper Plate Money.

Large, rectangular plates of copper, impressed with circular stamps, usually five in number, one in each corner, near the edges, and one in the center. All of these heavy, cumbersome pieces are rare and becoming more and more difficult to obtain. It is said that the export of them from Sweden is now prohibited by law in that country; this, if true, may account, partly at least, for the rapid advance in value of this series in the last few years. The following four lots were all stamped during the reign of Frederick I (1720-51) and represent all values in copper plate money, known of that king. Bids may be made for the four lots as a set.

462 ½ Daler 1726. Size 4½ by 4¾ inches. Each of the corner stamps has F R S (FRIDERICUS REX SUECIAE) with a crown above and the date below, all enclosed within a circular border of short dashes. The center stamp has ½ DALER SILF MYNT in three lines, crossed arrows below, encircled by border as before. Fine. Rare.

463 1 Daler, 1747. Size 5 by 5¾ inches. Similar to preceding except value and date. The plate has a somewhat uneven surface, broad, irregular furrows crossing it diagonally; these defects were evidently present before stamping. It seems also to be split under the center stamp, not visible on the surface, but indicated by the sound when striking it. Good. Very rare.

464 2 Daler 1742. Size 7½ by 8 inches. Similar to preceding except date and value. Very fine. Very rare.

465 4 Daler 1727. Size 9¼ by 9¾ inches. Similar to preceding except value and date. A fine even plate with all stamps unusally well struck. The nicest specimen of this value which has come under our observation. Extremely rare.
